## Goldfreeze® - CERTIFIED WARMTH

We are one of Europe's fastest growing cold store, chill and freezer brands. We make great quality fully certified and widely used cold protection PPE.

Our mission:

*To disrupt and change our sector with innovative, sustainably made and competitively priced products.*

Our best-selling range of Cold Store clothing, made with sustainable DuPont™ Sorona® that breathes with your body, keeping you warm and comfortable as moisture evaporates through our unique polyester outer layer. Certified to EN342:2017

For warmth in the most extreme working environments. Made with higher density and sustainable DuPont™ Sorona® and our five-layer construction system to trap the warm air your body creates while moisture evaporates through the breathable outer layer. Certified to EN342:2017

Chill garments that are tough, flexible and warm. There is a style in our range for every application from gilets, jackets and trousers to our best selling Deep Fleece. Caribou® is certified to the EN342:2017 cold store standard but is also ideal for unheated ambient environments.

We have an extensive range of certified gloves, footwear & accessories to keep your team warm, comfortable and safe.

For more information & pricing contact our sales office.

## Industry leading cold protection

Our Hi-Glo range of cold protection PPE is specifically designed for use in the coldest, harshest environments. Our design concept is based on our unique 5-layer construction system that traps multiple layers of air within the garment that are naturally warmed by body heat thereby keeping you warm. The garment insulates to your own body temperature for maximum comfort, while our breathable materials allow excess moisture to evaporate as your body temperature fluctuates during the working day.

Polyester taffeta lining.

Wadding migration barrier.

240gsm / 340gsm thermally bonded polyester insulation with DuPont™ Sorona®, specially developed by Goldfreeze®.

Wadding migration barrier.

Hardwearing 170gsm 100% Polyester twill with breathable water resistant outer fabric.

## Materials

New for 2021/22 we have upgraded our best selling **Hi-Glo®** ranges with the latest in sustainable and innovative materials

**Insulation:** Now made with DuPont™ Sorona® a sustainable plant-based material that offers maximum breathability, warmth and comfort  
**Outer Layer:** Made with a breathable water resistant soft polyester outer, adapted from ski wear that allows moisture vapour to evaporate while keeping warmth within the garment.

Our **Hi-Glo®** products breathe with you and adapt to your body temperature as your work activity changes throughout the day.

Ultimate protection to EN342:2017

Superior performance to EN342:2017

## Our Services

### How to order

Orders can be placed by telephone, fax or e-mail with our sales team. Where possible, please quote your account number and for all orders placed we will require your address and telephone number. For all commercial orders we require an official order number or reference. Please state product code, size, colour and quantity for each item you wish to order.

Payment can be made on 30 day credit terms (subject to approval and credit limit). We also accept all major credit and debit cards and PayPal.

Standard carriage is £8.00, although carriage is free on orders over £150.00 net goods value. Timed and Saturday deliveries may be available at additional cost. Carriage charges stated apply only to UK mainland and exclude Scottish Highlands, Islands, Channel Islands and Northern Ireland. Carriage will be charged at cost to all areas outside of the UK mainland.

**Telephone: +44 (0) 845 643 4753**

**Fax: +44 (0) 845 643 4754**

**e-mail: sales@goldfreeze.co.uk**

**We can offer next day delivery on orders placed for stock items by 3.00pm**

### Returns

In the unlikely event that goods need to be returned to us, please contact our sales office, explaining the reasons for the return, and a returns number will be issued. When goods are found to be faulty or incorrectly dispatched a full credit will be issued once goods have been received at our warehouse. Where goods are returned or exchanged without fault a restocking fee of 15% plus standard carriage will be deducted from the credit.

All returns must be made quoting the returns number given.

Garments which have been personalised or manufactured to your special order cannot be returned.

### Goldfreeze Ltd:

#### an ISO 9001 Registered Company

ISO 9000 is a family of standards for quality management maintained by ISO, the International Organisation for Standards.

The standard is administered locally by accreditation and certification bodies who

regularly undertake reviews and audits. As an ISO 9001 registered organisation we:

- Have a set of procedures that cover all key processes in the business and have monitoring processes to ensure they are effective.
- Keep adequate records - checking output for defects with appropriate and corrective action where necessary.
- Regularly review individual processes and the quality system itself for effectiveness.
- Above all, strive to facilitate continual improvement in everything we do.

## Terms and Conditions of Sale

1. Customer means the persons specified on the order, account reference or invoice who have accepted our quotation either verbally or in writing
2. Seller means Goldfreeze Ltd.
3. Goods are sold at the Seller's price specified on the invoice or any quotation or order confirmation provided by the seller. Quotations are valid for thirty days and may be changed at any time by the Seller without notice.
4. There is a minimum order level of £40.00 on one order. There is a carriage charge of £8.00 on orders less than £150.00 net goods. Carriage charges stated apply to mainland UK and excludes Scottish Highlands and Islands, Northern Island, Channel Islands, etc. Carriage will be charged at cost to areas outside of mainland UK.
5. The customer is responsible for the accuracy of any order placed including sizing, colour and application of use of the goods.
6. All goods sold are subject to VAT where appropriate.
7. Account terms are 30 days from date of invoice.
8. Delivery shall be when goods are collected from the Seller or are delivered by the Seller or his carrier. Delivery times are approximate and for guidance only. Time for delivery shall not be of the essence.
9. Risk of damage to and any loss of the goods passes to the Customer on receipt of delivery.
10. Claims for damage or short delivery must be made to the Seller within three working days in writing, and should also be noted on the carrier's delivery sheet if applicable.
11. No unwanted goods may be returned without prior consent of the Seller. They must be returned in "as new" condition, including any packaging. Unwanted goods may only be returned within seven days of delivery. There will be a charge for returning unwanted goods.
12. Garments which have been personalised by embroidery or heat seal badging or made to the special order of the Customer cannot be returned.
13. Ownership of the goods remains with the Seller until payment has been received in cleared funds. Should payments be overdue for any reason, the Seller may (without prejudice to other remedies) recover and resell the goods.
14. The Seller reserves the right to change the specification of goods at any time without prior notice to the Customer.

**This is an abbreviated version of our Terms & Conditions.**

UK equivalent	3	4	5	6	6.5	7	8	9	10	10.5	11	12	13	14	15	16

## Standards

### EN511 Gloves for protection against cold

Two things are measured with the glove: how the glove protects against convective (penetrating) cold, and its insulating capacity against contact cold.

The pictogram will be accompanied by a 3-digit code

The first digit show resistance to convective cold.

The second digit show resistance to contact cold.

(In both cases, performance is measured on a scale of 0-4)

The higher performance level the better insulating capacity.

The third digit show permeability to water (performance level 0 or 1)

0 = water penetration after 30 minutes

1 = no water penetration after 30 minutes.

### EN388 Gloves for protection against mechanical risks

Protection against mechanical hazards is expressed by a pictogram followed by four numbers (performance levels), each representing test performance against a specific hazard.

The pictogram will be accompanied by a 4-digit code.

The first digit shows resistance to abrasion.

The second digit shows cut resistance.

The third digit shows tear resistance.

The third digit shows puncture resistance.

(In all cases, performance is measured on a scale of 1-4).

### EN342 Coldstore Clothing

This is the standard for ensembles and garments which provide protection against cold. Our Hi-Glo® 25 and Hi-Glo® 40 ranges conform to this standard.

The first figure below the pictogram expresses thermal insulation of the garment in m<sup>2</sup>\*k/W, the higher the value the better the insulating properties.

The second figure denotes air permeability (1 – 3)

The third figure shows resistance to water penetration class (1-2 where 2 is best). This is an optional test as garments designed for use at low temperatures do not need to be waterproof.

### ISO EN20345:2011 Safety Footwear

All safety footwear sold by Goldfreeze Ltd meets the requirements of this safety footwear standard - which means minimum 200J toe protection and oil resistant outsole - this is denoted as SB (safety basic).

The following additional criteria also apply:

SBP: As SB but also has a penetration resistant midsole.

S1: As SB but are also anti-static and have an energy absorbing heel.

S1P: As S1 but also has a penetration resistant midsole.

S2: As S1 but also has a water resistant upper.

S3: As S2 but also has a penetration resistant midsole.

S4: As S1 but has a waterproof polymer upper.

S5: As S4 but also has a penetration resistant midsole.

Slip resistance is also denoted by compliance with the ceramic tile test (SRA) and the steel floor test (SRB) or both (SRC)

CI or HI denotes the footwear insulates against cold or heat. HRO denotes heat resistant outsole.
