

Heat protection trouser
made of aramid fabric (KA-3)
aluminized
JUTEC®-Item number:
HSH100KA-3

Aluminized heat protection trousers cover the employee up to the foot. The standard trouser features a covered central heat resistant hook-and-loop fastener and belt loops, but in accordance with DIN EN ISO 11612 without pockets. The extreme softness of the material allows a perfect fit. Application area: aluminium-, steel-, copper-, glass-, chemical industry etc.
