

Protection
against very
extreme conditions

Gold  **Freeze**
The Extreme Temperature Specialists

**Mitten made of
Aramid-fabric**

Product code: H111B140

These gloves are made of aramid fabric and are ideal for the working with hot parts up to 350°C. Especially the weight of the workpiece is important, because it influences the flow rate of the heat inside the glove.

Due to the individual construction, the gloves have a double lifetime, because of double sided usage and are therefore cost-saving

Application area: transport hot castings, working in the glass industry, furnaces, etc.

- Cut resistant, abrasion resistant
- Ambidextrous
- Double insulated
- Length 400 mm
