Gold Freeze

**5-finger-glove made of
Aramid frottie fabric**

**Product code:
H115B140-KVS**

These gloves are made of aramid frottie fabric ideal for hot work with sharp pieces that cannot be warmer than 350°C. Pay attention especially to the weight of the work piece to be transported, which takes effect on the heat flow. Ideal when working with pre-warmed metal sheets, e.g. at punch presses.

Application area: Transport of hot castings, furnace construction, glass industry, punch presses, etc

- cut resistant, soft, flexible
- usable on both sides
- double insulated
- length: approx. 400 mm
