

Mitten made of PBI®-fabric

**JUTEC®-Item number:
H111B130-PBI**

These gloves are made of PBI®-fabric and are ideal for the working with hot parts up to 500°C. Especially the weight of the workpiece is important, because it influences the flow rate of the heat inside the glove.

Due to the individual construction, the gloves have a double lifetime, because of double sided usage and are therefore cost-saving

Application area: transport hot castings, working in the glass industry, furnaces, etc.

- Cut resistant, soft, flexible
- Can be used on both sides
- Double insulated
- Length 300 mm
