

***Mitten made of Aramid-fabric and
reinforced with PBI fabric and
special insulation***

***JUTEC®-Item number:
H111B230-PBI-11***

These gloves are made of aramid fabric, palm and thumb inside surface reinforced with PBI fabric and double HBS insulation. They are ideal for the working with hot parts up to 600°C. Especially the weight of the workpiece is important, because it influences the flow rate of the heat inside the glove.

Application area: transport hot castings, working in the glass industry, furnaces, etc.

- special insulation
- abrasion resistant
- double insulation
- Length 300 mm
- Size 11

PBI®-only by  PERFORMANCE PRODUCTS, INC.
